Texas Orthopaedic Association’s 2015 Annual Meeting

April 16-18, 2015 | Austin, Texas
Downtown Hilton

Meeting Syllabus
2014-2015 Officers

President ......................... Marc M. DeHart, MD, Austin, TX
First Vice President .......... Howard R. Epps, MD, Houston, TX
Second Vice President ...... Kyle F. Dickson, MD, Houston, TX
Immediate Past President ... Patrick M. Palmer, MD, San Antonio, TX
Secretary-Treasurer .......... Christopher M. Danney, MD, Austin, TX

Historian/
Membership Chair ........... Maureen A. Finnegan, MD, Dallas, TX

Program Committee

Marc M. DeHart, MD – TOA President
Joel W. Jenne, MD – Program Chair
C. Brandon Broome, MD
Adam J. Bruggeman, MD
John W. Hinchey, MD
Louis S. Stryker, MD

About TOA

Mission and Vision:
The Texas Orthopaedic Association (TOA) was founded in 1936 as the united voice of over 1,400 Texas orthopaedic surgeons. Its mission is to ensure outstanding musculoskeletal health for Texans.

Purpose
TOA’s CME program promotes continuous improvement in musculoskeletal care by providing orthopaedic surgeons and other health care providers with high quality, evidence-based educational activities that focus on advances in orthopaedics, new technology, biomedical research, and changes in the health care environment. TOA’s CME activities focus on the core competencies of:

• Patient care
• Medical knowledge
• Interpersonal and communications skills
• Practice-based learning and improvement
• Professionalism
• Systems-based practice

The program’s ultimate goal is to enhance physician competence and performance.

President’s Message

Dear Colleagues:

Welcome to the Texas Orthopaedic Association’s 2015 Annual Meeting in downtown Austin. Over the next few days, we will review TOA’s activities over the past 12 months and learn more about the latest clinical and socioeconomic issues that are changing the face of orthopaedics and medicine.

Public policy and industry activities over the past few years have resulted in major changes for our nation’s health care landscape. TOA, which is the only organization that focuses exclusively on orthopaedic public policy issues in Texas, has been busy helping TOA members navigate the new health care landscape. Since January, TOA has been engaged in a number of issues that affect musculoskeletal care at the Texas Capitol.

In addition to its advocacy activities, TOA has been exploring the viability of a statewide patient-reported outcomes registry led by TOA. We have heard from an increasing number of Texas orthopaedic surgeons who have expressed an interest in collecting outcomes within their own practices. However, they believe that it would be more effective if TOA led the outcomes collection effort, which would allow orthopaedic surgeons across the state to compare data.

If you would like to participate in this effort, please contact me, I will provide more details at Friday’s lunch. TOA will continue exploring an outcomes registry for all Texas orthopaedic surgeons in the coming months.

Thanks again for your support of TOA through your membership and attendance at this meeting. Also, please choose several exhibitors to visit and thank for their participation. TOA would not be able to hold these meetings without their support.

Austin is one of the most popular cities in the United States right now. I hope that you will have an opportunity to experience all that our city has to offer.

Sincerely,

Marc M. DeHart, MD
Texas Orthopaedic Association President, 2014-2015
Margie Scalley Vaught will present her popular all-day orthopaedic course for orthopaedic surgeons and their staff. The event will focus on the latest orthopaedic coding changes, help with the ICD-10 transition, and much more. Participants are encouraged to bring ICD-10 books with them. TOA will provide both lunch and seminar handouts.

### THURSDAY, APRIL 16, 2015 - Room 406 (Fourth Floor)

Andrew Kant, MD with Congressman Kevin Brady of Texas (R-The Woodlands).

John Gill, MD of Dallas with Congressman Sam Johnson (R-Richardson).

TOA President Marc DeHart, MD of Austin with Congressman Michael Burgess, MD (R-Denton) in Washington.

David Mansfield, MD of El Paso with Congressman Beto O’Rourke (D-El Paso) in Washington.
Special Events

TOA Reception
Friday, April 17
5:30 pm – 7:30 pm
Meeting Foyer and Exhibit Hall

Always a popular event at the Annual Meeting, please make plans to join TOA for our annual reception in the exhibit hall and foyer. It will be a great opportunity to meet orthopaedic surgeons from across the state and other members of the orthopaedic arena.

Thanks to TMLT for generously sponsoring this year’s event.

TOA and TSSM members and their families are invited to attend.

TOA Past Presidents’ Breakfast
Saturday, April 18
7:15 am – 7:45 am
Room 403

All TOA past presidents are invited to attend this breakfast.

TOA/TOF/TSSM Annual Business Luncheon
Saturday, April 18
11:45 am – 12:15 pm
Salon D & E

TOA members, guest faculty and sponsors are invited to attend this luncheon.

Meeting Highlights

ICD-10 Coding Seminar
Margie Scalley Vaught
Thursday, April 16 – 8:00 am to 5:00 pm
Room 406

Margie Scalley Vaught will present her popular, all-day coding seminar. The event will focus on the latest orthopaedic coding changes, help with the ICD-10 transition, and much more. Participants are encouraged to bring ICD-10 books with them. TOA will provide both lunch and seminar handouts. The event will focus on the latest orthopaedic coding changes, help with the ICD-10 transition, and much more. Participants are encouraged to bring ICD-10 books with them. TOA will provide both lunch and seminar handouts.

13th Annual Resident Quiz Bowl
Saturday, April 17 – 12:15 pm to 1:15 pm
Salon D & E

In its 13th year, the Annual Resident Quiz Bowl teams up orthopaedic residents from schools across the state to compete for the top prize. The competition features two residents on each team from Texas' top orthopaedic training programs. Residents are competing for the highly coveted traveling trophy, title and bragging rights. This year’s emcee will be Kyle F. Dickson, MD.

Past TOA Resident Quiz Bowl Winners
2003 Winner: Brooke Army Medical Center
2004 Winner: Brooke Army Medical Center
2005 Winner: University of Texas Medical Branch
2006 Winner: University of Texas Medical Branch
2007 Winner: Brooke Army Medical Center
2008 Winner: University of Texas San Antonio
2009 Winner: University of Texas Medical Branch
2010 Winner: University of Texas Medical Branch
2011 Winner: Scott & White
2012 Winner: Wm. Beaumont Army Medical Center
2013 Winner: John Peter Smith
2014 Winner: University of Texas Medical Branch
2015 Winner: To be determined
Thank you to all of the TOA members who donated to the Texas Orthopaedic Political Action Committee (TOPAC). TOPAC gives orthopaedic surgeons a voice in the political process by supporting candidates who understand and support musculoskeletal issues.

If orthopaedic surgeons do not participate in the political process, our opponents will take advantage of our absence and define public policy issues by using their own terms. Laws and regulations touch on every aspect of a medical process. Therefore, orthopaedic surgeons must have a voice in the political process.

A special “thank you” goes out to all of the orthopaedic surgeons who donated $500 or more to TOPAC in 2014 and 2015:

2014 $500+ Donors
- Terry J. Beal, MD
- Renato V. Bosita, Jr MD
- William D. Bradley, MD
- Craig C. Callewart, MD
- Fred G. Corley, Jr MD
- Stephen C. Drukker, MD
- John S. Early, MD
- Jan H. Garrett, MD
- Roy J. Guse, MD
- Omer A. Ilahi, MD
- Andrew P. Kant, MD

2015 $500+ Donors
- Stefan W. Kreuzer, MD
- Richard F. McKay, MD
- George A. Richardson, MD
- R. Mills Roberts, MD
- Jose E. Rodriguez, MD
- Christian T. Royer, MD
- Eric M. Stehly, MD
- Mustasim N. Rumi, MD

Join TOA on Friday Evening for a Special Reception

Please make plans to join TOA for our annual reception on the evening of Friday, April 17 from 5:30 p.m. to 7:30 p.m. in the exhibit hall and foyer. It will be a great opportunity to meet orthopaedic surgeons from across the state and other members of the orthopaedic arena.
Upon completion of this meeting, learners should be able to:

1. Describe the appropriate use of new technologies and treatment strategies in sports medicine.
2. Define and contrast the different types of meniscal repair.
3. Analyze controversial treatment strategies involving young patients with legitimate hip pathology.
4. Critique the future trends for residency education and the effects that the trends may have on practicing orthopaedic surgeons.
5. Implement specific approaches to measure outcomes and costs, including patient-reported outcomes.
6. Recognize the different issues and changes for 2015 as they relate to orthopaedic coding and procedures.
7. Integrate patient-reported outcomes into individual care plans to refine treatment and improve quality of life for patients with musculoskeletal conditions, disorders, and injuries.
8. Interpret the ICD-10 coding guidelines.

Statement of Need: A need for this educational activity has been determined based on previous TOA course evaluations, AAOS CME curriculum and medical journals. TOA leadership and program committee members also identified program needs based on current orthopaedic topics and sports medicine issues.

Target Audience: The target audience will be orthopaedic surgeons, residents, fellows, and physicians with an interest in orthopaedic treatment. Athletic trainers, coaches, and orthopaedic clinic administrators/technical staff may also be interested in the program.

Program: The Texas Orthopaedic Association attests that the person(s) responsible for the development of this educational activity did so independently and were not influenced by commercial support.

Educational Method: Lecture presentations, case studies, and hands-on workshops.

CME Accreditation and Credit Designation: The Texas Orthopaedic Association designates this course for a maximum of 19.75 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Attendees will receive a total of 19.75 AMA PRA Category 1 Credits™ if attending all three days of this course, which includes 1 hour of Ethics. The ICD-10 Coding Course on Thursday offers 7.50 AMA PRA Category 1 Credits™, Friday’s course offers 8.00 AMA PRA Category 1 Credits™ and Saturday’s course offers 4.25 AMA PRA Category 1 Credits™.

2015 Annual Meeting
Global CME Learning Objectives

Upon completion of this meeting, learners should be able to:

1. Identify new protocols that lead to rapid recovery and decreased length of stay for total joint services.
2. Compare and contrast strengths and weaknesses for performing total joint services in an outpatient setting.
3. Analyze risk stratification, optimization, and bundles.
4. Implement specific approaches to measure outcomes and costs, including patient-reported outcomes.
6. Identify the most appropriate shoulder and elbow outcomes measures for use in patient evaluation and research efforts.
7. Identify new outpatient pain management treatment alternatives and pathways.
8. Identify current evidence for various pharmacological interventions for pain management.
9. Describe new payment models, such as accountable care organizations, gain-sharing, bundled payments, and other types of global payments.
10. Identify new state and federal laws and regulations that affect orthopaedic practices.

Description: This meeting is designed to identify areas of recent research in orthopaedics and sports medicine relevant to physicians, surgeons, and allied health professionals. This information will be transmitted through scientific paper presentations, question and answer sessions, spotlights on surgical techniques, current concepts and symposiums.

FDA Statement: Some drugs or medical devices demonstrated at the Annual Meeting have not been cleared by the FDA or have been cleared by the FDA for specific purposes only. The FDA has stated that it is the responsibility of the physician to determine the FDA clearance status of each drug or medical device he or she wished to use in clinical practice.

TOA policy provides that “off label” use of a drug or medical device may be described in the TOA’s CME activities so long as the “off label” use of the drug or medical device is also specifically disclosed (i.e. it must be disclosed that the FDA has not cleared the drug or device for the described purpose). Any drug or medical device is being used “off label” if the described use is not set forth on the product’s approval label.

Disclaimer: The material presented at the Annual Meeting has been made available by the Texas Orthopaedic Association for educational purposes only. This material is not intended to represent the only, nor necessarily best, method or procedure appropriate for the medical situations discussed, but rather is intended to present an approach, view, statement or opinion of the faculty which may be helpful to others who face similar situations. TOA disclaims all liability for injury or other damages resulting to any individuals attending a session for all claims, which may arise out of the use of the techniques demonstrated therein by such individuals, whether these claims shall be asserted by a physician or any other person. No reproductions of any kind, including still photography, audiotapes and videotapes, may be made of the presentation at the TOA Annual Meeting. The Association reserves all of its rights to such material, and commercial reproduction is specifically prohibited.
## Financial Disclosures

Each program participant in the Annual Meeting has been asked to disclose if he or she has received something of value from a commercial company or institution, which relates directly or indirectly to the subject of their presentation. Participants must disclose:

- research or institutional support has been received;
- miscellaneous non-income support (e.g., equipment or services);
- royalties;
- stock or stock options;
- consultant or employee;
- and disclose if nothing of value received

An indication of the participant’s disclosure appears after his or her name as does the commercial company or institution that provided the support. TOA does not view the existence of these disclosed interests or commitments as necessarily implying bias or decreasing the value of the author’s participation at the meeting.
