Working Lunch

1:00 pm – 3:30 pm

Administrative Tips and Coding

3:30 pm – 3:45 pm

Break

3:45 pm – 5:00 pm

Discussion and Questions Period

The TOA Workers' Compensation Workshop will provide specific information on regulatory changes, reimbursement challenges, and disability management aspects of treating patients in the workers' compensation system.

Upon completion of this activity, meeting participants will be able to:

- Describe the latest developments in workers' compensation laws and rules, specifically the new increased fees, workers' compensation specific payments for case management, bonus payments for critical access shortage areas, and new legislation passed during the 80th legislative session;
- Discuss the impact of the new disability management rules, quality of care, and patient access;
- Exchange ideas with experts and peers on treatment guidelines, return-to-work guidelines, and treatment planning initiatives, and
- Learn how to respond to and meet the needs of the current and anticipated changes of the workers' compensation system.

****The Experts are available**
to answer every question.**

Registration Fee

TOA members
or their staff ~ \$189

Nonmembers ~ \$249

Texas Orthopaedic Association

Continuing Medical Education Information

Continuing Medical Education

The Texas Orthopaedic Association is accredited by the Texas Medical Association (TMA) to provide continuing medical education for physicians.

TOA designates this educational activity for a maximum of 7 AMA PRA Category 1 Credits™.

Physicians should only claim credit commensurate with the extent of their participation in the activity.

Who Should Attend?

- Physicians who want to find out more about the workers' compensation system — getting paid appropriately, identifying patients by type, contracting with networks, and safeguarding their practices with appropriate policies.
- Office staff, administrators, or managers who are interested in the new fees for workers' compensation patients and who want to learn the administrative details of navigating the workers' compensation system.

Course Objectives

Upon completion of this program, participants should be able to:

- Recognize the keys to success in identifying network, non-network, and out-of-network patient types,
- Describe the goals of the disability management rules adopted by TDI's Division of Workers' Compensation, including the new fee guidelines,
- Identify the three components of disability management,
- Identify how to access disability management rules and helpful resources,
- Define the different roles of physicians in the workers' compensation system,
- Describe the interaction between the preauthorization process and the evidence-based treatment guidelines, and
- Explain the two medical dispute resolution processes that help with payment issues.

Teaching Methods

- Lecture
- Audio-visual presentation
- Question-and-answer session
